| COVID-19 Update: Wednesday 25 March 2020 |

BIG4 Inverloch Holiday Park will close to tourists and annuals from midnight tonight

As a further measure to try and contain the spread of COVID-19, the Victorian government has mandated that all caravan and camping parks must close at midnight tonight 25 March 2020 to all tourists, holidaymakers and annuals.

The ONLY exceptions are for residents who live permanently on-site, travellers trying to make their way home or travellers living on the road who do not have a permanent place of residence.

Parks can also open to workers whose primary residence is not available due to the distance between their home and their work site.

Under this state government directive, unfortunately, annuals MUST NOT be admitted to our park.

We understand that this is devastating news for many of our loyal and loved visitors and annuals but in the interests of public health, we must all work together to eliminate COVID-19 and thank you for your continued co-operation and support.

The BIG4 Inverloch Management Team
